PARC Capital Campaign Update

Momentum is building for the final phase of our capital campaign to fund the development of the Council's new Program, Activity & Resource Campus (PARC)!

Dedicated Scouters and enthusiastic community leaders have volunteered to lead the charge as the Council reaches out, in and around the council territory, inviting individuals, corporations, organizations and foundations to help take PARC from a great idea to an amazingly impactful reality.

- Coach Dick Vermeil, Boy Scout Alex Hughes and Venturer Christine Luczka are serving as honorary chairs.
- Council President Mike Burg (Saul Ewing LLP) is serving as chair of the Presidents' Circle Committee, which is comprised of seven past Council presidents who are focused on a defined list of potential investors known to them.
- Council Advisory Board Member Jim McErlane (Lamb McErlane PC) is serving as chair of the Council Campaign Committee, which is focused on a community-wide list of potential investors.
- Scouters Linda Bravacos, Esq. of Diamond Rock, Lee McIlvaine of Lenni Lenape, Gary Westlake of Horseshoe Trail and Doug Delestienne of Octoraro are chairing committees within their respective districts, focusing on potential local investors who understand the impact of Scouting.

This campaign leadership team is already amazing—and already at work—but is still growing. We have our caps set towards a particularly appropriate Gifts in Kind Chair and are in the process of recruiting the support of more community leaders who can help raise the awareness about Scouting and PARC.
